Our Services and Customs

Read Before Ordering

Policies. In our transaction of business with you a great desire for mutual satisfaction prevails. In order to make clear our customs we have endeavored in the paragraphs following to inform you of them so that there will be no misunderstanding.

Our Responsibility. We exercise the greatest care and give our personal attention to cutting buds and scions and packing orders. With all precaution mistakes and errors sometimes creep in. We guarantee any plant or tree or shrub we send out to be alive and in growing condition and true to name. We pack stock so that it will carry any distance. It may be on the road two or three weeks or longer and not suffer to any extent. We hold ourselves in readiness at all times to replace on proper proof any tree, plant, or shrub that may prove untrue to name or that arrives in damaged condition. It is also mutually agreed between ourselves and purchaser that our guarantee shall in no case make us liable for any sum greater than that originally paid for the trees, plants, or shrubs that are unsatisfactory for any of the reasons stated above.

Our Special Service. Those who are unfamiliar with the newer varieties of fruits and who desire assistance in making selection of variety may depend on our judgment in making selection for them. Just state the quantity wanted, whether early or late, sweet or sour, etc., and we will give such orders our closest attention and furnish best varieties grown. If you

have plenty of certain varieties growing better so state in order to avoid repetition in our selection.

Substitution. Occasionally we find ourselves out of a certain variety. In such cases we always send the nearest match in color and season unless you instruct when placing your order to make **no substitution**.

To Avoid Errors. Write your name, post office and shipping address very plainly. If possible send your orders early. First orders as far as practicable will be sent first. We usually commence shipping in the Spring about the first of April and in the Fall about October 15th.

Prices. Herein given are our prices for stock well packed f. o. b. Perry, Ohio. The expense of packing a small order is nearly as much as a large one, hence we prefer not to accept an order for less than \$3.00. We will ship 5 or more trees of any variety at 10 rates, 25 or more at 100 rates, 250 or more at 1000 rates. We advise having all small orders shipped by express. This reduces to a minimum the danger of damage to stock and undue delay.

Terms. We expect cash with orders. In ordering goods to be sent C. O. D., one-quarter of the bill must accompany order. Planters requiring a large quantity of stock need not send all the money with the order. You can send enough to secure the order and the balance any time before shipment.

To Our Friends—Old and New

We hope you will find many things of interest to you in our new catalog. We have not "boomed" any single plant creation for our own profit, but have listed only varieties we grow and know to be hardy and worthy of culture in the North Central States. We do not propose to waste any space in our catalog showing you highly colored and exaggerated pictures of new and untried varieties which have not been proved to be worthy of planting. We prefer to put the extra money it would cost us to hire an expert catalog writer and do this, into the growing and handling of our stock. We have found this to be much more profitable to our customers as well as to ourselves.

Our Trees are all hardy and well matured. They stand transplanting much better than those which have grown on hot, damp bottom lands, which are sometimes offered by some nurserymen. It has always been our aim to personally supervise the raising

of every Tree and Shrub that we send out. We are exceedingly careful in obtaining our buds and scions, for in this one thing alone are we sure in getting trees true to name. When you buy trees from us you may be sure of the very best quality with good roots and not only true to name, but also the highest standard of that name.

We know that many nurseries offer stock at lower prices than ours. Some offer to pay the freight and offer every inducement to get your money. If you are looking for cheap stock, regardless of quality, do not send your orders here. If you wish the very best at reasonable prices, we shall be only too glad to receive your orders. We will fill your orders with the finest selected stock, packed in the best possible manner to carry any distance, and give it as much attention as could be given it were you here to attend to it yourself.

We are growing many items which, due to lack of space in our descriptive catalog, we were unable to list in the past. In this list you will find these items in their proper classification and *starred. Should you wish further information on any of these items feel free to write.

If you have not received our new 32 page descriptive catalog, fill out the enclosed card and a copy will be mailed to you at once.

DECIDUOUS TREES

	Each	Per 10

"Visitors are welcome at our nursery." We extend an invitation to you to call at our nursery when you are in this vicinity.

Perry is located just 35 miles east of Cleveland and 20 miles west of Ashtabula. Our Nurseries are one-half mile south of the U. S. Highway No. 20 which is the Chicago, Cleveland, and Buffalo Route. We are also accessible from Ohio Route No. 81. We have large signboards on these routes which will direct you to our nursery.

Fifty Years of Perfect Service

The picture you see to the right is that of our founder, S. W. Call. From a humble beginning of one and one-half acres of fruit trees, Mr. Call started a business that has grown to 220 acres of Fruit Trees, Ornamental Trees, Evergreens, Roses, etc.

Call's Nurseries has been in continuous operation since its founding. During the fifty-one years this nursery has acquired a 'character,' which surely marks its business relations with its patrons.

We feel safe in trusting to an introduction by old customers but expect that new customers will have to be "shown." This very thing we are willing and eager to do. Should you desire any information not covered by our catalog, please feel free to write us. We shall be pleased to give you advice or help you select varieties of Fruit or Trees and Shrubs for beautifying your home grounds. We are interested in every tree we sell for upon their success depends our success. Our oldest customers are our warmest friends.

It is our aim to give individual service on each order we receive. We have expert field men who know how to select trees and plants that will please you.

We have worked long and hard for a good reputation among our customers and friends. We have kept faith with them for over fifty years.

May we serve you?
